

**PARK ON CALL**

# REDUCING OVERHEAD IN THE PARKING INDUSTRY

Leaders in the parking industry have now taken on the important role of adapting and pivoting to thrive in our new normal. More than ever, businesses are taking a hard look at their overhead. There may be a need to reduce or realign costs, but the need for quality customer service still remains the same. This is where Park On Call comes in.

We can operate for less than \$0.55/hour depending on the size of the location.

We save clients hundreds of dollars on daily personnel costs that can either be eliminated or reallocated.

We help managers protect their daily personal and office time by handling the help button calls.

If you need to focus on growth, reduce overhead, and simplify your days, evenings and weekends, contact us to learn more about how we can be valuable to your organization and work toward a more sustainable parking operation.
